GENERAL ASSEMBLY OF SFE

Our assembly took place on April 2nd at PLB3 (Philippe le Bon). We presented the activity and financial reports for the years 2017 / 2018 and our new internal Statute as well. This Statute is more detailed and precise clearly the organization of SFE.

This was also the starting point for the internal elections for the renewal of the Executive Committee, the Financial control Commission and the Mediation Committee (before named Dispute Committee).

Then, we discussed the future of the SFE union and the political issues for the future.

An ad-hoc meeting on topics is scheduled for the end of May.

Do not hesitate to contact us if you want to participate!

AMENDMENT OF THE ANTI-CUMULATIVE RULE FOR SNE

Administrative Information No. 15-2019, adopted on April 5th 2019, has modified the 2004 decision by deleting the reference « seconded national expert ».

In practice, this means that the SNE period is no longer counted in the « 7 years » rule.

As reminder, find below agent included in the rule anti-cumulation of 7 years, benefits in quality of:

- ✓ Temporary agent 2a;
- ✓ Temporary agent 2b: recognition only for benefits (in progress or new contract) as of May 1st 2004;
- ✓ Temporary agent 2d: recognition only for benefits (in progress or new contract) as of May 1st 2004;
- ✓ Contractual Agent 3a without prior success of a CAST;
- ✓ Contractual Agent 3b (Commission), except conference interpreters;
- ✓ Interimaire (however, the first 3 years of service as a temporary worker are not included in the 7 years anti-cumulation rule);
- ✓ Service provider (except for services that fall under directive 95/50 EEC and this for benefits to count.

A EUROPEAN PACT ON PLASTIC PACKAGING... AND US?

In early April, France and the Netherlands launched an initiative to adopt a “plastic pact” on packaging at the European level, with countries that have developed an ambitious circular economy policy.

It is more urgent and important to rethink the use of plastics and alternatives on a European scale.

In the Commission, we can congratulate ourselves that the idea is making its way into our cafeteria, canteens and distributors. “Take away” packaging has therefore become more respectful of the environment. Water pumps have been installed in many buildings.

For SFE, this just the beginning, the concept of “respect for the environment” must be included in the specifications at the next tender for the restoration.

And this at all stages of the process (from the purchase of products and packaging until distribution to the customer).

We are among the organizations concerned with the climate issue and the changes that must be internally within the Commission itself. We also want to highlight everyone’s actions.

Find some testimonials of [‘good ideas and actions’](#) to implement at its level and in particular to support the action of an NGO contributing to the planting and reforestation of trees in Europe.

By the month of June, we will meet to define the main lines that SFE will have to propose in the Staff Committee.

It is therefore important that everyone brings their ideas!

REPORT THE ACTIVITY OF YOUR SPOUSE! THIS CAN HAVE AN IMPACT ON YOUR RIGHTS!

We published this news end of 2018, but given the situation of some colleagues who contacted us, it seemed important to republish it again!

If you do not have / more dependent children, you can continue to receive the household allowance in respect of the spouse's income (*income ceiling set by Article 1st § 3 of annex VII of the Staff Regulations*).

The spouse, without income and without entitlement, does not necessarily receive a Belgian role extract notice, which makes it impossible to report the spouse's income.

Several colleagues received a reminder from the PMO of the obligation to declare under penalty of having their household allowance cut on 31/12/2018

What to do?

SFE has contacted the PMO for clarification on this subject! What they did quickly!

If you're concerned, you must actually file an annual spousal income tax return in your Sysper (*). If your spouse does not have a rollover warning, then you can provide a **recent sworn statement**.

Do not hesitate to contact us if you are concerned!

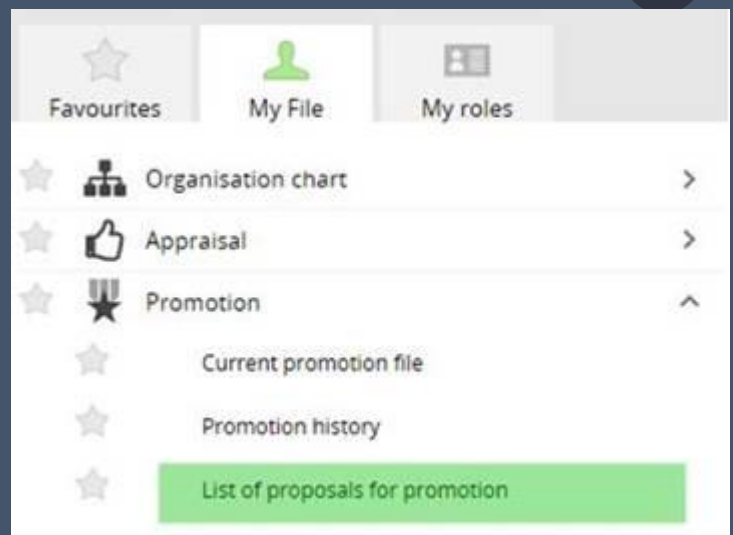

() For pensioner colleagues, contact your pension manager first to find out how to proceed.*

According to the schedule drawn up by DG HR, the Staff Representation will meet from May 13rd to June 7th, the directors general of the various DGs who will propose a list of the promoted persons.
